

## Proposition 1D - High Performance Schools

Proposition 1D set in place a program for assisting you in creating high performance schools—CECI can help you.

In November 2006 voters approved Prop 1D which has a provision for \$100 million of incentive funding for high performance schools. The program uses the CHPS score card, which has a total of 85 possible points. Schools with 25 points can obtain 2% matching funds over normal allowance, up to 9% of matching funds can be obtained for higher points.

Proposition 1D

### We can assist you with your high performance schools attaining the required points

#### Energy Optimization and Commissioning

⇒ 23 % of the available CHPS points are energy performance related and commissioning saves 5-20% in energy costs.

#### Indoor Outdoor Water Systems

⇒ 6% of available CHPS points

#### Indoor air quality, acoustics, thermal comfort and light & daylighting

⇒ 23% of available CHPS points

#### CHPS Documentation Management

- ⇒ District resolution
- ⇒ Construction waste management documentation
- ⇒ Sustainable material documentation

Chuck Shinneman, our Director of Sustainability, has 20 years experience consulting school districts and architects in the area of high performance schools and funding sources. CECI has the collective knowledge and resources that comes with 60 years of school design paired with expertise in energy funding programs such as Savings by Designs, Leroy Greene Act, and Proposition 47/55 we have obtained over \$250 million dollars grant funds at 2,500 schools. This equates to over \$50 million a year in school energy savings!
